

Influenza-Related Deaths Occurring In Idaho¹
Number of Deaths by Age Group and Residence
Deaths Occurring During the 2005-2006 Flu Season²

| Residence | Total | Age | | |
|--------------|-------|-----|-------|-----|
| | | <18 | 18-49 | 50+ |
| District 1 | - | - | - | - |
| District 2 | - | - | - | - |
| District 3 | - | - | - | - |
| District 4 | 5 | - | - | 5 |
| District 5 | 3 | - | 1 | 2 |
| District 6 | 1 | - | - | 1 |
| District 7 | 1 | - | - | 1 |
| Non-resident | 2 | - | - | 2 |
| Total | 12 | - | 1 | 11 |

Notes:

1. Influenza-related deaths are based on ICD coding for influenza in Part I and Part II on the Death Certificate. Influenza may have been the underlying cause of death or contributed to the death.
2. Flu season: Deaths occurring October 1, 2005 – May 1, 2006.

Only deaths occurring in Idaho are reported in this table. This excludes deaths to Idaho residents occurring in other states and includes deaths to non-residents occurring in Idaho. Data shown in this table will differ from statistics based on Idaho resident records, data based on underlying cause of death only, and data based on calendar year.

Data are based on records filed with the State as of March 31, 2006.
